- ✔ Enable paperless reporting that saves time and improves efficiency.
- ✔ Collect photos, videos, and signatures digitally on-site.

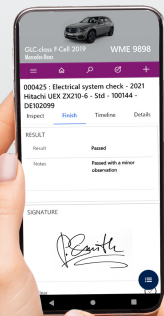

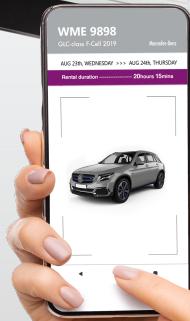

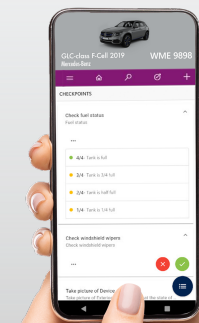

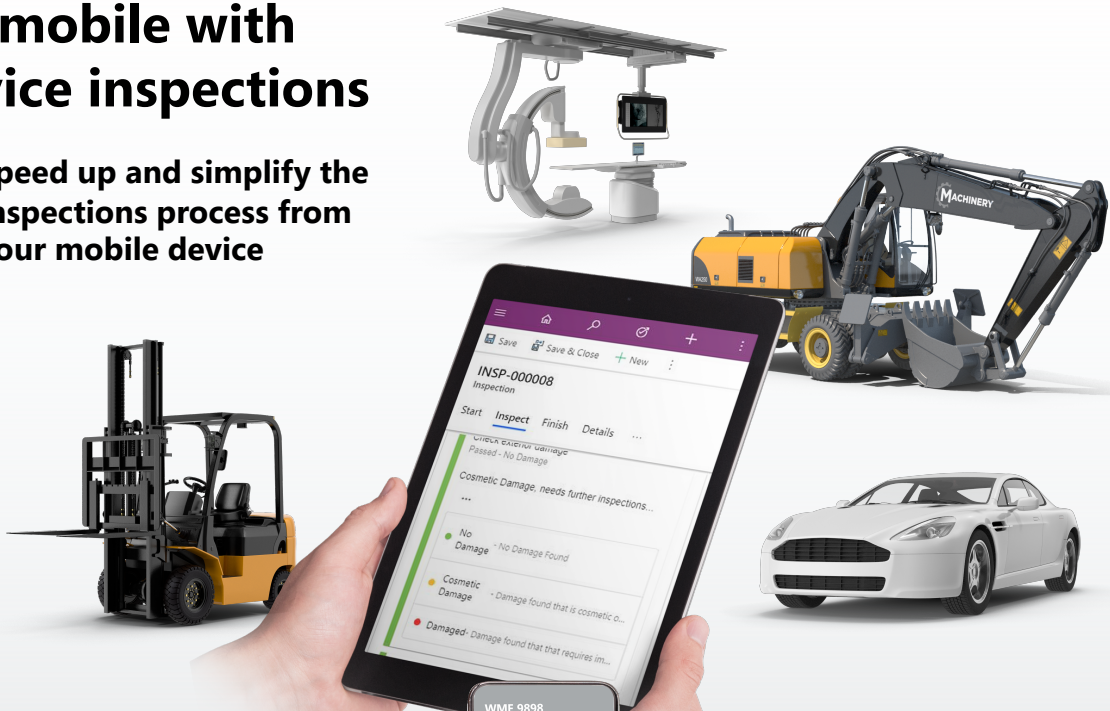

Annata 365 Inspections brings technical excellence, business insight, productivity, and compliance to the inspections process with minimal investment or risk.

- ✔ Manage and perform inspections with a device as the subject.
- ✔ Manage and perform inspections without a device as the subject.
- ✔ Record observations for devices during inspections or whenever needed.
- ✔ Define checkpoints support actions such as simple yes/no, pass or fail, user-defined option lists, reading from device meters, or taking photos or videos.
- ✔ Define checklists quickly and consistently from reusable checklists.
- ✔ Set rules to reduce risk and effort and drive compliance by guiding users during inspection entry.
- ✔ Integrate seamlessly with Microsoft Dynamics 365 Business Applications.
- ✔ Implement the offline capability when used with Microsoft Dynamics 365 Sales, Customer Service, or Field Service.

Go mobile with device inspections

Speed up and simplify the Inspections process from your mobile device

Complete inspection checkpoints one by one by selecting the appropriate option. This collapses the point to show only the result.

Checkpoints may involve taking a photo, recording video, or audio, automatically activating the smartphone camera and attaches the media files.

Finish the inspection by reviewing the outcome of the inspection checkpoints, adding notes if needed, and providing your signature.

Annata consists of highly motivated professionals, who through creativity, collaboration and commitment, assists customers excel in their business.
